

British American Educational Foundation

Your support is vital to our Scholars' Program.

"After a year of working with BAEF alumni and the British boarding schools which they have attended over the past year, I see clearly the importance of our mission. Every alum that I meet is clear that the BAEF experience was life-changing, and many British schools have been thoughtful about the need for their students to know American students on a personal basis rather than their impressions from the media.

"But the weakness of the dollar is a tremendous hurdle for our applicants, and I've had many excellent candidates have their dream of attending a British School dashed because they simply cannot afford the tuition.

"It is my hope that The BAEF will be able to give some measure of financial aid to these worthy students in the coming year. Please consider a generous gift that will enable a talented candidate to be a BAEF scholar."

- Laurel Zimmermann, Executive Director

"The BAEF experience served as invaluable preparation for college and greatly expanded my horizons. The year in England was a formative experience and one I will always remember. Moreover, it led to transatlantic friendships that endure to this day."

- Former BAEF Scholar

"We, at Gordonstoun, have been delighted with the students who have been recommended by BAEF. The BAEF understand the programmes available to US students here at Gordonstoun and can discuss with prospective students all that we can offer. Students from the USA are very important to Gordonstoun and the Gordonstoun American Foundation keeps in touch with alumni of all ages."

- Jenny Needham, Gordonstoun American Foundation
